The institution has an inbuilt mechanism for making the learning process more student centric. The institution makes available the following support structures, systems and processes that are essential for making learning process more student centric. They include well-established library , ICT class rooms for interactive learning, MANA TV educational satellite channel programs, educational programs arranged by the District Resource Centre (DRC), invited lectures, field trips, demonstration, interaction methods, debates, group discussions, subject quizzes and class room seminars. Another student centric method of learning is exclusive interactive method which includes debates, deliberations, group discussion, role plays, surveys, subject quiz and bring storm session with lecturer concerned as the facilitator. ICT enabled teaching methods through virtual class room, digital class rooms, class rooms with LCD projectors and smart TVs make learning more student friendly and effective. Most of the experiential learning of the students will be from the experiments conducted in practical lab sessions of the respective subjects. Along with this, the faculty creates congenial atmosphere by engaging students demonstration, visual aids, periodical industrial visits and field trips. Based on the principle of 'if you do experiment you will notforget concept'. We are conducting practicals to the students independently for all science students.
